Make Cooking Easy.

REYNOLDS & SON, BARRE, VT.

LORENZ ON HIS METHOD.

Never Claimed Priority, He Says, but Only Improvement.

Dr. Adolf Lorenz said to a reporter of the New York Times in an interview recently at New Orleans concerning bloodless surgery: "It is charged that I claim to be the originator of this method, but I do not claim priority in the treatment at all. Such priority would not be of value. Any sensible man could make this class of invention. Some smart midwife of the middle ages probably first tried this method."

"I only claim to have introduced more technique and thoroughness into an old method which was long neglected. I am now only trying to make this method popular for the benefit that will accrue to all mankind from it, and I think I have incidentally made quite a success of it. The dissecting knife is being left out in the treatment of congenital foot and hip trouble."

A Children's Exchange.

There is being revived in Berlin this spring a curious arrangement called "the exchange of children," which was adopted by some charitable people last year and which has been commended to the charitable disposed of the British Islands, says the St. James Gazette. The promoters arrange for the temporary interchange of city and country children for a few months in the summer. Those from the farms come into the city, which is a valuable educational experience for them, and those in the city have an opportunity to enjoy a little country life without depriving the parents of either the country or town children of assistance.

Traveling Libraries.

In Sweden books are placed in third class railway cars for the free use of passengers. A similar plan is about to be adopted in Denmark.

"D. D. D." the astonishingly effective new

Skin disease prescription

Eczema, Salt Rheum, Barbers' Itch, Erysipelas—all eruptions, scaly diseases and parasitic affections of the skin positively cleared away in a hurry. A clean, pleasant liquid (non-greasy) externally applied—sponged or sopped over the parts. Instantly stops all irritation. Soon clears out absolutely all affected conditions.

(Here is a case cleared away with two bottles.)

(Case of daughter of Mr. Moss Hartman, permanently cured of a bad skin disease after two bottles only of this D. D. D. prescription.)

We vouch for these facts.

They have been proven to us beyond the possibility of doubt.

RICKERT & WELLS, Barre.

Some weeks ago the astonishing record of this prescription—proven to me by indisputable evidence—induced me to give it my unqualified recommendation to the public. Since then D. D. D. has cured so many who obtained it from me that its record with me has been fully equal to its previous history. I have not seen a single instance of disappointment. It seems to do the work every time. In nine cases out of ten, manifestations on the skin are skin diseases—not blood diseases. Many purchasers formerly miserable, thinking they had a bad blood disease, have found it was merely a skin affection and have cleared it all away with this prescription.

Among all the known reliable specific medical influences for different ailments, I know of very few discoveries so certain in effect as this D. D. D. prescription in its quick conquest of skin diseases of all kinds.

A FEW CURES OF WELL-KNOWN PARTIES.

Chicago, April 7, 1905.
"About six months ago my daughter began getting sores all over her body and was gradually getting worse. Nothing seemed to do her any good, although we tried different medicines but without success. She would scratch continually and was a sight to look at. I was asked to try a bottle of your D. D. D. remedy, which I did, and to my surprise it worked wonders on her the second day, and before the bottle was empty she was almost cured. The second bottle completely cured her. I will highly recommend your remedy to any suffering with skin disease, the fact is I cannot say enough for it."
Wishing you every success I am, yours very truly,
P. KILSHAMMER, 2001 Fillmore Street.
"I am glad to say that the bottle of medicine furnished by you in July last has been of great benefit to me. I am now free from the annoyance heretofore suffered from Eczema on my ankles. I have also cured a friend of mine who had two or three spots on his face."
W. J. FOOTNER, St. Paul, Minn.
View President and General Manager of Great Northern Express Co.
"That wonderful discovery, the D. D. D. remedy, cured me of a bad case of Eczema of long standing, which the physicians could not cure. I cheerfully recommend it to all persons afflicted with any kind of skin disease."
C. B. WOODWARD,
(Ex-Mayor), Cairo, Ill.

The preparation is being used by most of the skin specialists. It is compounded for druggists solely by the D. D. D. Company, 70 Dearborn Street, Chicago.
It is utilized by every general family physician who has taken the trouble to investigate the work it is accomplishing.
It is used in the Cook County Hospital, Chicago.
It will clear off any parasitic break in the skin in from 3 days to 60 days' time.
If you have a skin disease visit the above agents and see proofs that will make you a happier human being.
\$1.00 buys this prescription—already made up in sealed bottles—with authentic label on each.

REDUCTION OF NAVIES

Seriously Discussed in the House of Commons.

ENGLAND MAY PROPOSE IT.

Sir Charles Dilke suggests that France and Russia be approached—United States Not Regarded as Possible Enemy.

London, May 15.—The question of the reduction of naval armaments came up again in the course of a discussion of the navy estimates in the house of commons. The speakers suggested that the government take the first step in proposing a reduction to other powers. Sir Charles Dilke (Advanced Radical) said he thought this might be possible. In view of the improved relations between Great Britain and France those two nations might talk the matter over and subsequently approach Russia. Even if Germany did not agree to a reduction the three powers might effect something. It was not necessary for Great Britain to build against the United States. It would be as great a mistake to count upon the United States as an enemy as to count upon her as an active ally, for the United States had always been the great defender of the rights of neutrals.

Mr. Arnold-Forster, the admiralty secretary, after having pointed out that it was the duty of the admiralty to deal with facts as they were and not as they might be, said that all the great powers were increasing their maritime preparations, notably Russia. According to the available figures, France and Russia together were now building three more battle ships than Great Britain. As the actual force in ships which could be arrayed against Great Britain ought to be the guiding principle, he denied that the admiralty's proposals were in excess of the requirements of the country.

Position of the United States.
The secretary added that he would not on that occasion express any view with regard to the position as affected by the United States. "That was a grave consideration which in future would have to be considered." Whether European powers and the power across the Atlantic might come to some agreement in regard to the cessation of armaments was not, however, the question he had to deal with now. The admiralty's present duty was to give the nation a guarantee against attack, and more important still, against defeat by any combination of the powers.

Sir Robert Reid (Liberal, formerly attorney general) suggested that the government endeavor to obtain an alteration of the laws of naval warfare, making foodstuffs not contraband of war and exempting personal property from capture. Such an agreement, he thought, would withdraw all temptation for foreign nations to build strong navies.

Building in Auburn Suspended.

Auburn, N. Y., May 15.—All building operations are suspended here, 300 carpenters having gone on strike for higher wages. The master builders offered to meet them half way, but the journeymen would not concede a fraction of a cent. The demand is for 30 cents an hour minimum and 36 1/2 cents for foremen. The masters offer 28 1/2 cents minimum and 31 1/2 cents to foremen. Some of the better class of workmen are receiving more than the proposed schedule, but the bosses object to paying good and poor workmen alike.

Deaf Mutes Present Operetta.

Chicago, May 15.—"The May Queen," an operetta in two acts, was given at the Y. M. C. A. auditorium by a cast of whom none could utter or hear a word of the music or dialogue. The cast was made up of a score of the pupils of a school for deaf mutes. The song and dialogue incident to the games were rendered in the sign language. The sentiments were made intelligible to the audience by interpreters.

Confiscated Diamonds Sold.

Detroit, Mich., May 15.—United States Marshal W. R. Bates sold at public auction 581 diamonds on the steps of the federal building for \$19,175. The gems were seized in 1899 from Louis Busch, who was later convicted in the United States court of smuggling them from Canada and fined \$1,400 and \$200 costs. The diamonds were sold in three lots and were bought by two local firms.

Great Damage by Dock Strikers.

Santiago, Chile, May 15.—The damage done at Valparaiso during the rioting of the striking dock laborers is estimated at about 1,000,000 pesos. Complete calm prevails at Valparaiso. Arbitrators have been appointed to decide the questions pending between the steamship companies and the dock laborers, who have resumed work.

To Shut Down Coke Ovens.

Lafayette, Pa., May 15.—Almost half of the coke ovens of the Monastery plant of the H. C. Frick Coal and Coke company will be blown out by the end of this week. The temporary shut down will result in a large number of the employees of the company being put on half time.

Storm Keeps Shamrocks In.

Gourock, Scotland, May 15.—Owing to unfavorable weather the Shamrocks did not leave their moorings. The cup challenger's new canvas sets so well that her managers are anxious to avoid having her sails soaked with rain.

A Most Delicious Dessert

Shredded Whole Wheat Biscuit is made in the most hygienic and scientific food laboratory in the world. The wheat is spun into light shreds, containing thousands of open pores and is not crushed flat and dense as in the case of other foods. These pores absorb the digestive juices and provide far greater surface for their action than is given by any other food.

The following simple "course before coffee" is much in vogue with club men everywhere. The simplicity of preparation and the little cost, together with the delicious taste of the compote, make this dessert in rare favor in the home.

USE SEASONABLE FRUIT AND

SHREDDED WHOLE WHEAT BISCUIT

Split and slightly toast the Biscuit, then serve with berries, sliced peaches, bananas or any seasonable fruit. Simple, isn't it? Your verdict will be

"Simply Delicious"

For Shortcake—With sharp knife halve the SHREDDED WHOLE WHEAT BISCUIT lengthwise; prepare pineapple as for sauce for bananas or mixed fruit and with fruit and add sugar and whipped cream.

SHREDDED WHOLE WHEAT BISCUIT is sold by all grocers.

HARRIMAN HELD UP.

Train Which Flew Through Ogden Stopped at Evanston.

Salt Lake, May 15.—A special from Evanston, Wyo., says that E. H. Harriman's train was stopped by the sheriff at Evanston and legal papers were served on the railroad president. It is probable that Mr. Harriman will come to Salt Lake and appear in the federal court.

Traveling at the rate of fifty miles an hour, the special train shot through Ogden and continued on its journey from San Francisco to New York.

This was the first time on record that a train had passed through Ogden without stopping at the Union station, and it was done at the request of President Harriman, who learned earlier in the day that a deputy United States marshal was awaiting his arrival at Ogden to serve papers in connection with the suit of the heirs of former Governor Durkee against the Central Pacific railroad, involving something like \$27,000,000.

Massachusetts' Legislative Scandal.

Boston, May 15.—Before the special senate committee appointed to investigate the charges made by George Raymond of Boston that a senator had attempted to obtain money from him to prevent the passage of legislation which affected Mr. Raymond's business Senator Harvey C. Foster of Gloucester was named by Mr. Raymond as the senator to whom he referred in making the charges. Mr. Raymond further said that Mr. Foster stated he had to divide with "Senator Fitzgerald." As there are two Senator Fitzgeralds and as the committee hearing adjourned abruptly on account of a controversy over the further examination of Mr. Raymond testimony was not obtained to indicate which of the senators with the identical surname was involved.

Forest Fires Break Out Anew.

Greensburg, Pa., May 15.—The breaking out anew of the forest fires on Chestnut ridge has caused the greatest consternation among the people. A mountain home owned by Booth & Flinn, near Blairsville intersection, has been destroyed. Telegraph and telephone poles crossing the ridge at Blairsville intersection have been burned and the wires rendered useless. At Lake Hollow, near New Florence, the big mill for the manufacture of pins for poles has been burned. The Evans Lumber company has lost several thousand dollars' worth of pit posts. Booth & Flinn have lost several cars of cross ties. The fire is raging in the vicinity of Ridgeview Park. People of Millwood and Berry are now engaged in fighting the flames.

Hope of Averting Strike.

St. Paul, May 15.—The general committee and grand officials of the Great Northern Tradesmen have been in conference with General Manager Ward of the Great Northern railway trying to arrange a settlement of their differences. Although the men have made every preparation for a strike there are hopes now of an amicable agreement being reached. The conference was looked on as possibly the first step in the settlement of the differences between the company and its employees.

Old Gristmill Burned.

Farmer, N. Y., May 15.—The stone gristmill at Ovid, one of the largest and oldest in Seneca county, owned by W. E. Blaine, has been totally destroyed by fire. The loss is about \$10,000. The mill furnished the flour for Willard State hospital.

New Watertown Wagons

Carload just received. Good line straight through. If you want a good Wagon come in and look them over. Prices right.

H. F. CUTLER,

Livery and Feed Stable, Rear City Hotel.

Largest Battle Ship Launched.

London, May 14.—The Commonwealth, the largest battle ship afloat, has been launched at Govan, on the Clyde. She is the first vessel of the British navy to have her ten 6 inch guns protected by an extended barrette instead of by casemates. Her other armament consists of four 12 inch guns, four 9.6 inch guns and twenty-four small guns. The new battle ship's speed is to be 18.5 knots per hour, and she will carry a crew of 755 men. The Commonwealth is of 16,350 tons displacement, and her engines are to be of 18,000 horse power.

Vice Hunters Subpoena Editors.

Schenectady, N. Y., May 14.—Every newspaper man in the city has received a subpoena to appear before the grand jury to testify regarding the conditions which are alleged to exist in Schenectady with regard to vice. The local newspapers from time to time have insisted that vice is being condoned by the authorities, and the result is that County Judge Vedder has ordered the grand jury to take up the matter and sift it thoroughly. Every newspaper proprietor, editor and reporter has been ordered to appear, and the editorial offices are crippled.
